---

## EXPERIENCE

**Phiof Services Pvt. Ltd.** • Noida, Uttar Pradesh Jan 2024 - Present  
*Frontend Developer*

- Worked as part of the development team as a Front-End Developer for a prominent US-based client, ensuring seamless collaboration and project alignment.
- Successfully implemented new features to enhance user experience and functionality across the client's platform.
- Delivered three major projects on schedule, contributing to a 20% cost reduction through optimized development workflows and resource allocation.
- Focused on creating efficient, responsive, and scalable user interfaces tailored to client needs.

**Newtown Technologies Pvt. Ltd.** (Remote) July 2023 - Dec2023  
*Frontend Developer*

- Designed and maintained an advanced online auction platform for selling bankrupt factories, industries, and other properties.
  - Developed intuitive user interfaces, enabling seamless live auction participation, property bidding, and activity management.
  - Conducted rigorous testing to ensure platform stability and scalability, accommodating a growing user base.
  - Collaborated with cross-functional teams to implement real-time auction updates and responsive web designs.
- 

## PROJECTS

### OpenAI-Powered Content Platform

- Designed a responsive and user-friendly frontend for an AI-powered platform, featuring a clean prompt editor and AI-generated suggestions.
- Integrated detailed data visualizations for usage insights and ensured seamless functionality across various devices.

### BidBoli

- Developed a dynamic online auction website enabling users to buy and sell assets with a focus on intuitive navigation, real-time updates, and user authentication.
- Delivered a responsive web interface optimized for both desktop and mobile users.

### BidBoli Admin Panel

- Created a fully responsive admin panel for managing asset listings, user accounts, transactions, and platform content.
- Integrated interactive dashboard graphs to visualize user engagement metrics, providing actionable insights for administrators.

### Bumble Clone

- Built a functional replica of the Bumble dating application, including Razorpay integration for premium subscription payments.
  - Developed features such as user profile management, swiping functionality, real-time messaging, and secure payment processing.
-
